

Case Number 3:18-cv-05929-BHS-JRC

Since I last filed on this case my callout schedule has been altered by staff without any real or imagined penological interest or objective achieved. Today, 4/14/2020, I was moved ~~to~~ to another cell, once again achieving no real or imagined penological objective or interest, after filing this with the court I'm going to be infected and placed in Segregation for a cell assignment refusal because of my concerns for my own safety.

If this escalating pattern after my last filing isn't straight forward retaliation, then I will be very concerned with this courts agenda. I hope that I don't need to be assaulted or worse by staff before the court takes my concern seriously. Does this court require me to be another Farmer v. Brennen?

Please I beg this court not to ignore my pleas, this isn't some game you're playing, this is a living breathing human being's life, gambling on someone's life, with the history of DOC is wrong. I'm not who the defence portrays me as, all I want is to be free of harassment and physical harm, and to make it safely home to my family, where I'll be far away from people like the defence.
